

Question	Republican for PA Governor: Doug Mastriano	Democrat for Governor: Josh Shapiro
Should parents have access to what their children are being taught?	Yes. Mastriano will support strengthening curriculum transparency requirements and universal "Parental Rights" statutes in PA laws.	No. Shapiro will thoroughly support Teachers' Union policies, currently denying parental control of children's education, as well as supporting "gender-affirming" and racial "equity" programs.
Should the government forbid biological boys to compete in girls' sports?	Mastriano will use every resource to its fullest extent to protect women's sports.	Shapiro has shown that he will use unilateral executive action to allow biological boys to compete in girls' sports.
Should Pennsylvania continue to enforce Covid restrictions?	No. Mastriano advocates a return to normalcy: ending vaccine and mask mandates, with a focus on affordable off-label, early treatment drugs for Covid.	Yes. Shapiro was part of an administration that imposed crippling, economy-busting and education-destroying lockdowns, as well as funneling infected seniors into nursing homes. PA's handling of Covid was a disaster.
Should violent felons be released on current bail reform?	No. Law and Order needs to be restored, especially in our cities.	Yes. Shapiro is following George Soros' liberal incarceration policies, where violent felons "need" to be restored to "normal" life as soon as possible – resulting in a 500% increase in urban crime.
Pennsylvania has more natural gas than Saudi Arabia. Should PA's natural energy resources be developed?	Yes. Only ensure PA's abundant natural energy resources are developed responsibly.	No. Shapiro will continue Wolf's burdensome taxes, regulations and fees, which effectively stop drilling and mining in PA.
Should measures be taken to ensure the security and integrity of PA's elections?	Yes. Mastriano has a plan (doug4gov/plan) to regulate "No-excuse" mail-in voting, enact voter ID, ban private funds to influence elections.	No. As part of the Wolf Administration, Shapiro supports suppressing and vetoing any election integrity initiatives proposed by PA lawmakers.
