Question	Republican for PA US Senate: Mehmet Oz	Democrat for PA US Senate: John Fetterman
Should "recreational" drugs be legalized?	No. Only legalize marijuana for palliative care. Any legalization of opioid drugs is criminally irresponsible, in view of the current deadly opioid epidemic. Testing positive for drugs is a major cause for unemployment.	Yes. Wants to legalize marijuana which is far more toxic today than what hippies smoked in the 1970's. Also wants to legalize stronger, more lethal drugs, like heroin.
Should convicted felons be released early from jail?	No. Dr. Oz opposes "anti-law" proposals like "cashless bail" that make it tougher for police to do their jobs.	Yes. Fetterman advocates release of 1/3d of all prison inmates. Under that policy crime has increased over 500%.
Should student debt be forgiven?	No. College debt-forgiveness disadvantages those who are financially responsible, and encourages colleges to keep increasing tuition.	Yes. Fetterman wants all student debt be forgiven – at taxpayer expense, whether the taxpayer went to college or not.
Should border security be enforced?	Yes. Dr. Oz believes a secure border is critical in maintaining our core identity as a country and in fighting crime.	No. The current Fetterman administration encourages "ghost flights" into PA: unknown migrants are flown into PA and bused to unknown locations. How many MS-13 criminals come in that way?
Should the private sector be empowered to provide health care?	Yes. With his extensive medical background, Dr. Oz understands the drawbacks of government-administered health care, and will work to promote private-sector, inexpensive alternatives.	No. Fetterman supports complete government take-over of health care, no matter the waste, cost and complete control over our lives and deaths.
Should heavy regulations on drilling and fracking for natural gas in PA be overturned?	Yes. PA is a leader in the production of natural gas and coal, and should be freed from Biden's regulatory attacks. We don't need to be paying high prices at the pump or at the food stores.	No. In the name of "climate change," Fetterman wants to eliminate resource development, even though PA's abundant natural gas will allow PA's "forgotten places" to prosper.
Should the military be defunded?	No. Dr. Oz believes in peace through strength to keep the world safe and to support our allies.	Yes. Fetterman advocates slashing the defense budget, lifting "maximum pressure" sanctions on Iran, and for the US to lead the way in abolishing nuclear weapons, leaving US vulnerable to rogue nations.
